

Hazard Monitoring, Early Warning, and Decision Support Solutions Powered by DisasterAWARE®

Better solutions. Fewer disasters. Safer world.

Monitor and assess hazard impacts and coordinate response strategies.

Receive early warning alerts for hazards as they unfold around the globe.

Exercise preparedness and plan for future threats using a vast inventory of authoritative data and modeling tools.

Disaster AWARE

CUSTOM SOLUTIONS

DisasterAWARE is a highly advanced decision support system used operationally by thousands of disaster managers and humanitarian assistance practitioners around the globe for disaster risk reduction planning, preparedness, response, and recovery. It is helping to protect millions of lives worldwide-giving decision makers the insights they need to alleviate human suffering and avert long-term economic setbacks from natural disasters.

We build more than great technology. We build long-term capacity.

Next generation technology... to protect the next generation

Early warning

Multi-hazard monitoring

Impact modeling

Hazard exposure analysis

Risk and vulnerability analysis

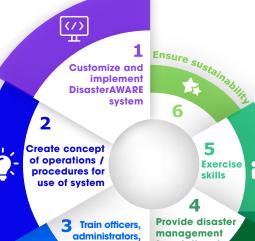

Damage and needs assessment

Largest scientific data inventory

Mobile updates and communications

Response planning and analysis

Preparedness exercises

Development planning (build-back-better)

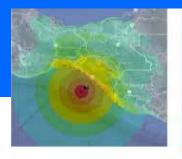

Analytics and reporting

DisasterAWARE HIGHLIGHTS

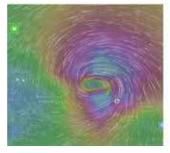

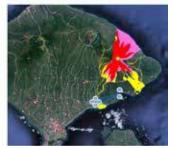

ADVANCED HAZARD IMPACT MODELING

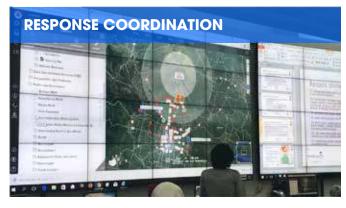

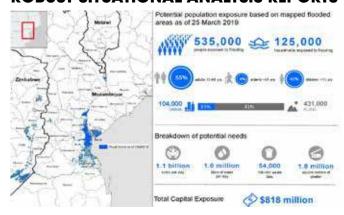

1000+ GLOBAL AND NATIONAL DATA LAYERS

ROBUST SITUATIONAL ANALYSIS REPORTS

18 HAZARDS

Custom systems our partners use

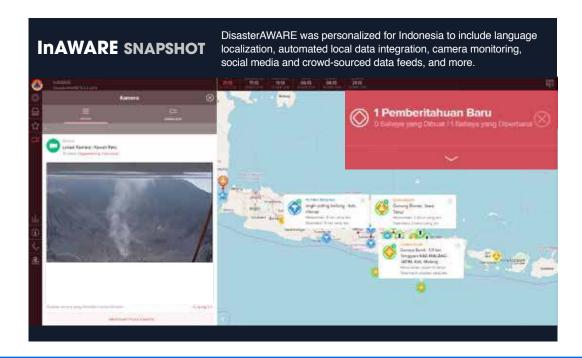

PROJECTS COMPLETED THROUGH GENEROUS SUPPORT OF THE U.S. GOVERNMENT.
