## RESILIENCE (R)

RANK: 50 / 77 DISTRICTS ASSESSED

SCORE: 0.452

Rasuwa’s score and ranking are due to High Vulnerability combined with Moderate Coping Capacity scores.

Below are the four thematic areas with the weakest relative scores:

Information Access Vulnerability

Food Insecurity

Communications Capacity

Energy Capacity

## KEY FACTORS INFLUENCING RESILIENCE

### Information Access Vulnerability

Limitations in information access can impede a population’s ability to receive, understand, and take action. Emergency messages must take into account the unique information access constraints of the district. Emergency messages presented to the population must contain clear and simple information to ensure an appropriate response to save lives and reduce losses.

### Food Insecurity

The changing frequency and intensity of disasters can expose the entire food system to supply chain disruptions. Promoting resilient agricultural systems through training of local farmers in sustainable practices (e.g., soil improvement, erosion reduction) and improving efficiencies in food marketing, storage, delivery, and waste management will help to increase the nutrition and food security of present and future generations.

### Communications Capacity

The density, diversity, resilience, and quality of communications infrastructure influence how subnational- and local-level populations are able to facilitate effective and coordinated communication.

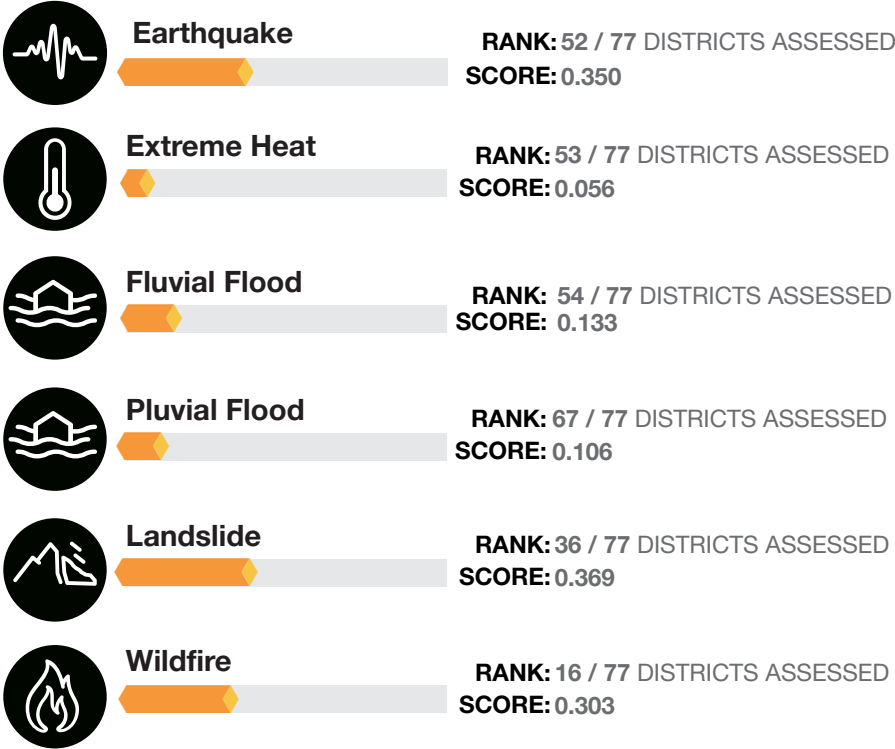

### Energy Capacity

Homes, businesses, industry, and government all rely on access to energy resources for continuity of daily activities. Expanding, strengthening, and securing the energy network and increasing the availability and quantity of energy reserves will contribute to economic development and increase the speed of recovery processes in the aftermath of a disaster.

## HAZARD-SPECIFIC RISK (HSR)

## MULTI-HAZARD RISK (MHR)

**44 / 77**

RANK WITHIN DISTRICTS  
Score: 0.517

Rasuwa's score and ranking are due to Low Multi-hazard Exposure combined with High Vulnerability and Moderate Coping Capacity scores.
